Dear Ambassador,

The 16th edition of the IDET International Defence and Security Technologies Fair will take place in Brno, Czech Republic from 9 to 11 June 2021. The event takes place under the auspices of the President of the Czech Republic Miloš Zeman and the Prime Minister Andrej Babiš.

Over three decades IDET became one of the most prominent defence and security technologies trade fairs in Europe. The 2019 edition of IDET attracted more than 400 exhibitors from nearly 30 countries, many of them key defence technology manufacturers from the EU and NATO countries. More than 26,000 professionals from 40 countries visited the event and invitations were followed by official army delegations from 20 countries of the world.

Apart from presenting the cutting-edge defence and security technology and military equipment, IDET 2021 will offer a unique platform for industrial cooperation and an extensive expert program of conferences, presentations and discussions. Security Innovation Zone for start-ups, will highlight new ideas and novel solutions, ready for the exploitation process by the industry.

The regular presence of the Czech Army Forces, supported by the visit of the Minister of Defence, Chief of General Staff and other high-ranking military officials, will underline the importance of this exhibition event. The ongoing mid- and long-term procurement plan of the Czech Army will definitely be among the many hot topics debated in numerous presentations and business meetings during the show.

Concurrently with the IDET fair, the PYROS International Fire Fighting Equipment and Services Fair and the ISET International Security Technology and Services Fair will be held.

Dear Ambassador, let me extend my invitation to take part in the IDET 2021 and ask you to inform relevant institutions from within the defence and security sector in your country about the forthcoming IDET 2021.
