Smart industrial innovation as enabler to drive new value chains for textiles and aerospace

GALACTICA project aims to support the creation of new industrial value chains around textile and aerospace sectors based on advanced manufacturing.

The vision is to drive cross-sectoral innovation to boost new market opportunities, revenues and improve productivity.

GALACTICA will facilitate the uptake of advanced manufacturing technologies as part of the digital transition of the textile and aerospace industries.

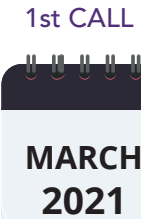

- Lack of exploitation of digital and advanced manufacturing technologies
- Sectors unknown to each other

- New overlapping value chains
- Digital industries
- Exploitation of Smart Industry
- Cross-sectoral collaboration

Galactica will launch two calls for proposals to support SMEs

Each call will include two funding schemes:

PIONEER ACCELERATION

CONCEPT VALIDATION

Reach your MVP and validate your business concept

40 PROJECTS EXPECTED

20k€ per project

ORBITAL PROJECTS

BUILDING & DEMONSTRATION

Make and test a functional product in the market

20 PROJECTS EXPECTED

100k€ per project

Other support activities

- Online training webinars
- Cross-sectoral fertilization workshops
- Industrial learning expeditions
- Matchmakings
- Hackathons

100k€ in cash prizes
